

# Luxury Portfolio

# Luxury Portfolio

For more than 60 years, the same core belief has guided Lutron — that innovative design and the transformative nature of light have the power to enrich people's lives. The Lutron luxury portfolio is the purest expression of that belief.

# The Experience

Next-generation lighting. Hand-crafted controls.  
Reinvent how light in the home should feel.

Product: Ketra Lighting with Alisse Keypads | Residence: East Hampton, New York

## Captivating Beauty

Reflect your style with experiences as unique as you are. Personalize lighting, shades, and controls to complement the home and the life you live in it.

Product: Palladiom Shades and Keypads | Residence: Midtown Manhattan, New York

Bespoke Experiences

Designed with life in mind. Stay connected to your home with controls that feel natural, responsive, and simple to use.

Product: Palladiom Shades and Lutron App | Residence: Sag Harbor, New York

## Intuitive Interactions

# The Elements

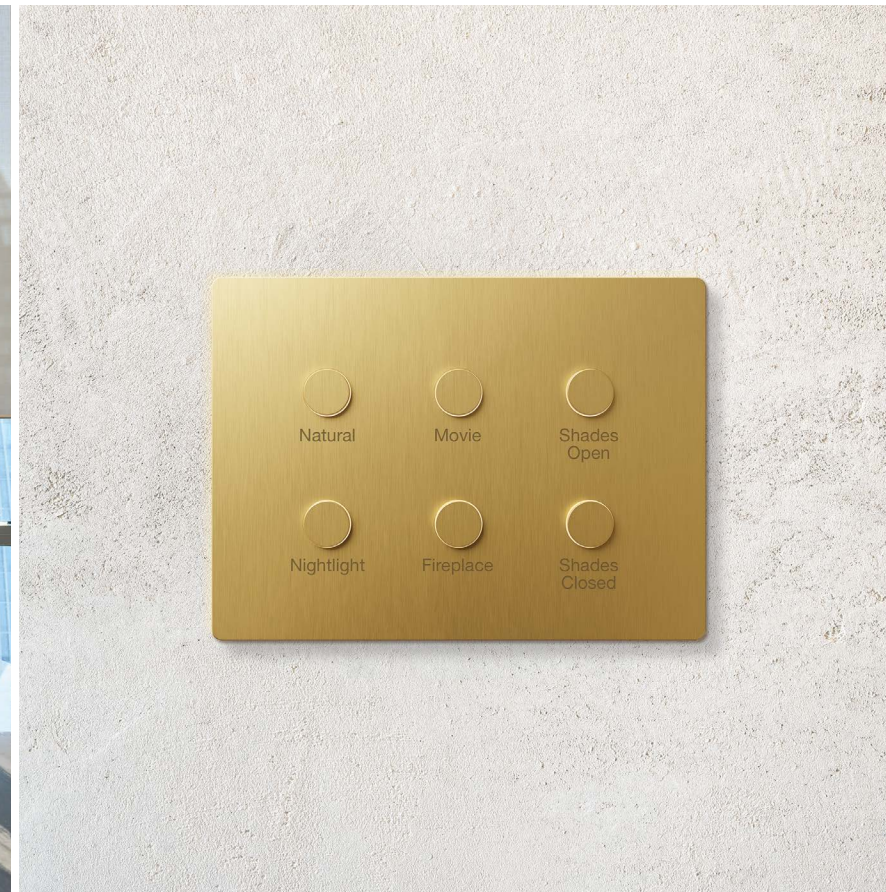

Seamless, precise, and hand-crafted: This is your home tailored and connected to form a system that's far more powerful than the sum of its parts.

Lighting 14

Shades 22

Controls 30

Integration 38

A spec sheet doesn't tell the story. Quality of light isn't just about CRI or TM-30 — it's measured in experiences, how closely it cleaves to the contours of natural light, how precisely it paints life with color, and how reliably it maintains its performance. You know it when you feel it. Lutron's Intelligent Light Portfolio redefines the expectation for what lighting in the home should be.

# Lighting

The Future of Light in the Built Environment

# Sync with Nature

Sunrise to sunset — feel the day's natural shifts in intensity and color throughout every room of your home. With an internal, astronomical clock and geolocation, the Natural Show synchronizes your Ketra light sources with the sun to deliver an ever-adjusting experience in tune with the day's rhythms.

Recharge

# Indulge Your Mood

Express what you feel in light. Retreat to the warm amber of an incandescent glow, relax in the cool blue of moonlight, or recharge in a revitalizing bath of violet hues. Ketra's high-def palette renders color with pinpoint accuracy, giving you the freedom to paint each moment with a mood.

Product: Ketra Lighting | Residence: Austin, Texas

## Bring Art to Life

Bring museum lighting to your home with Ketra TruBeam and Vibrancy. Ketra's first-of-its-kind ability to render color and sculpt light makes textures, textiles, and artwork burst to life.

# Intelligent Light Portfolio

Next-gen lighting. Superior reliability. Ketra, Rania, and Lumaris are designed to work seamlessly together in order to transform spaces and create harmonious experiences.

## Ketra — the world's most innovative light source

## Rania — an unprecedented approach to exceptional white light

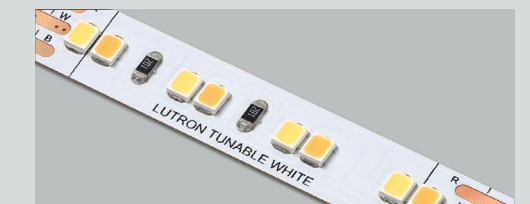

D2 Downlight

With an innovative three-channel solution, Rania brings a quality of natural white light unmatched by any two-inch aperture downlight in the market—other than Ketra.

## Lumaris — pro-grade native lighting for Lutron systems

The Lumaris tunable white tape light solution — the first ever tape light designed to be part of a Lutron connected lighting control system.

Tunable White Tape Light

Like a dimmer for the sun. Lutron automated shades are an integral part of the light control system, weaving whisper-quiet privacy, protection, and the choice between hundreds of premium textiles into the Lutron luxury portfolio.

# Shades

Tailored. Precise. Daylight Control.

## Intelligent Hembar Alignment

When in motion, Lutron shades monitor their hembar alignment over a hundred times a second to ensure shades raise and lower in calm unison.

Product: Palladiom Shades | Clear Anodized

## Whisper Quiet

Lutron designs each drive and curates each textile to be as quiet as possible, measuring the shade movement down to a fraction of a decibel to ensure it's as quiet as a whisper.

Product: Palladiom Shades | Satin Nickel

## Beautiful Privacy

Cut glare and personalize privacy. Choose from hundreds of woven textiles designed to help you strike a balance between connection to the world and sanctuary from it.

# Welcome to the Art of the Shade

Authentic materials. Hand-finished detailing. Breakthrough engineering. With the quiet, automated shade, Lutron established an entirely new category, combining groundbreaking technology, such as Intelligent Hembar Alignment, with refined style in a way only Lutron could.

## Shades

Gallery Collection

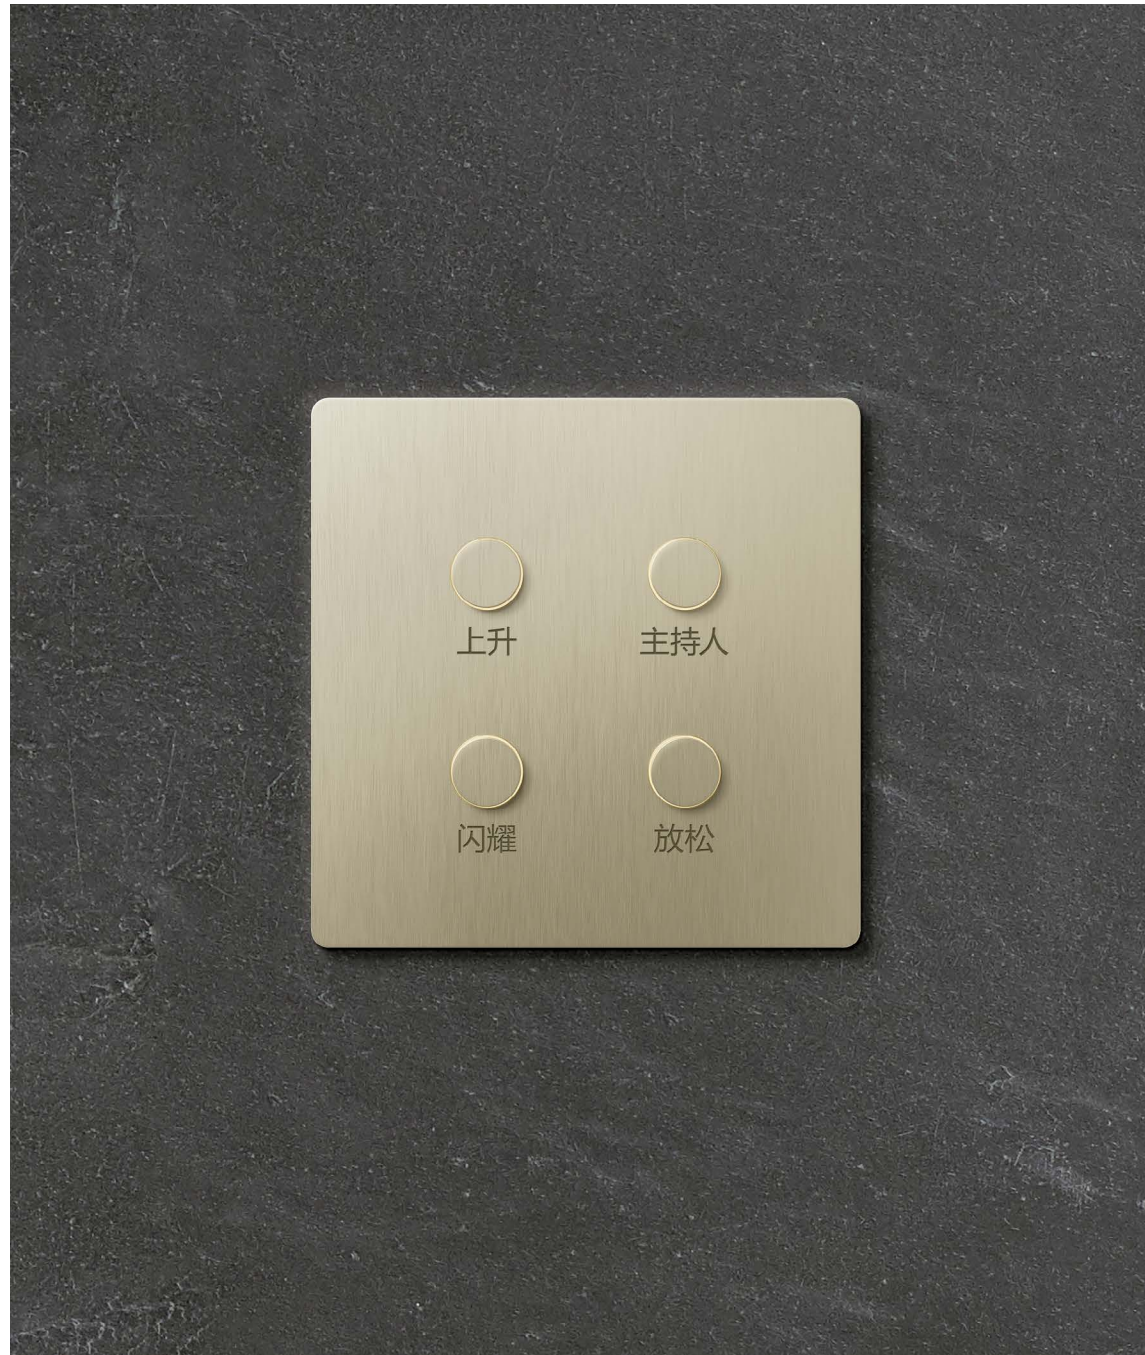

Crafted with authentic materials that bear the marks of artisanship. Each design decision is made not from the inside out to achieve a technical purpose, but from the outside in to ensure each control is beautiful, intuitive, and a pleasure to use.

# Controls

Time-Honored Craftsmanship

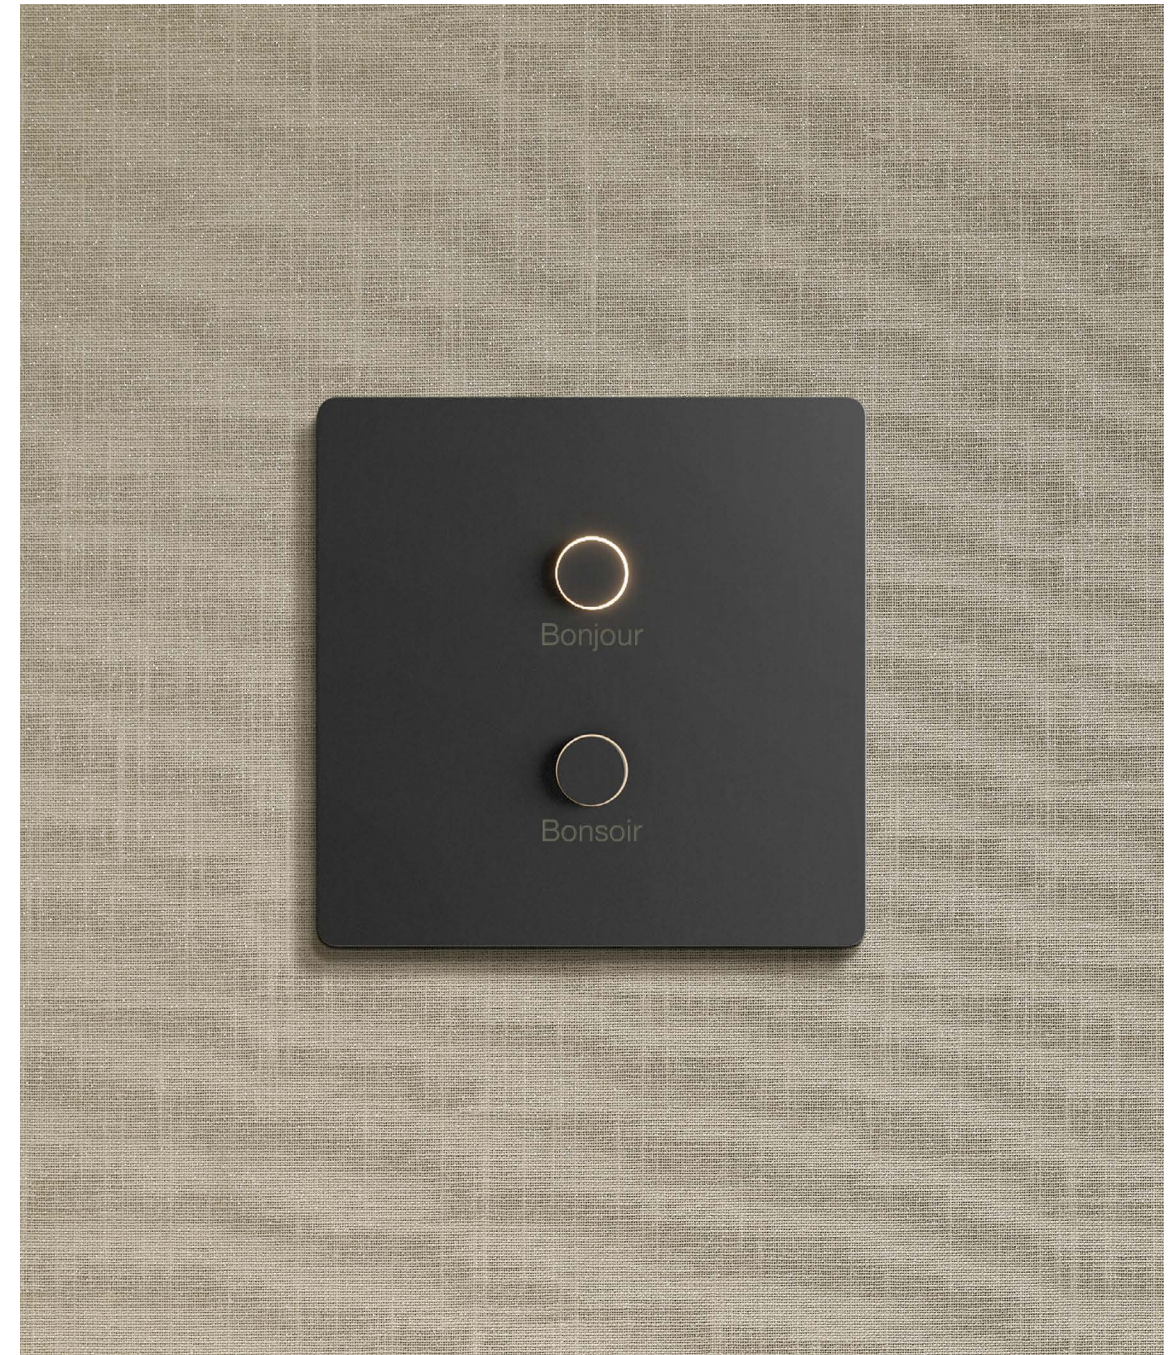

## Personal by Design

Custom button engraving makes instant home control second nature, not just for you but also for your guests.

Product: Alisse Keypad | Champagne

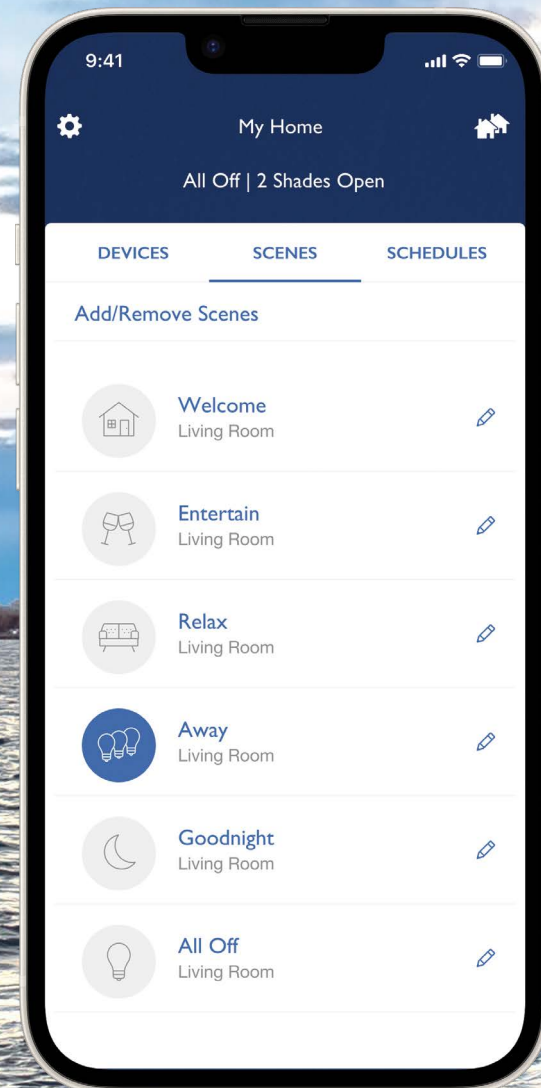

## Simple by Design

Keypads make room and whole-home control effortless. Each button is custom engraved and programmed, so common commands are fingertip-accessible throughout your home.

Product: Alisse Keypad | Graphite

# Control From Anywhere

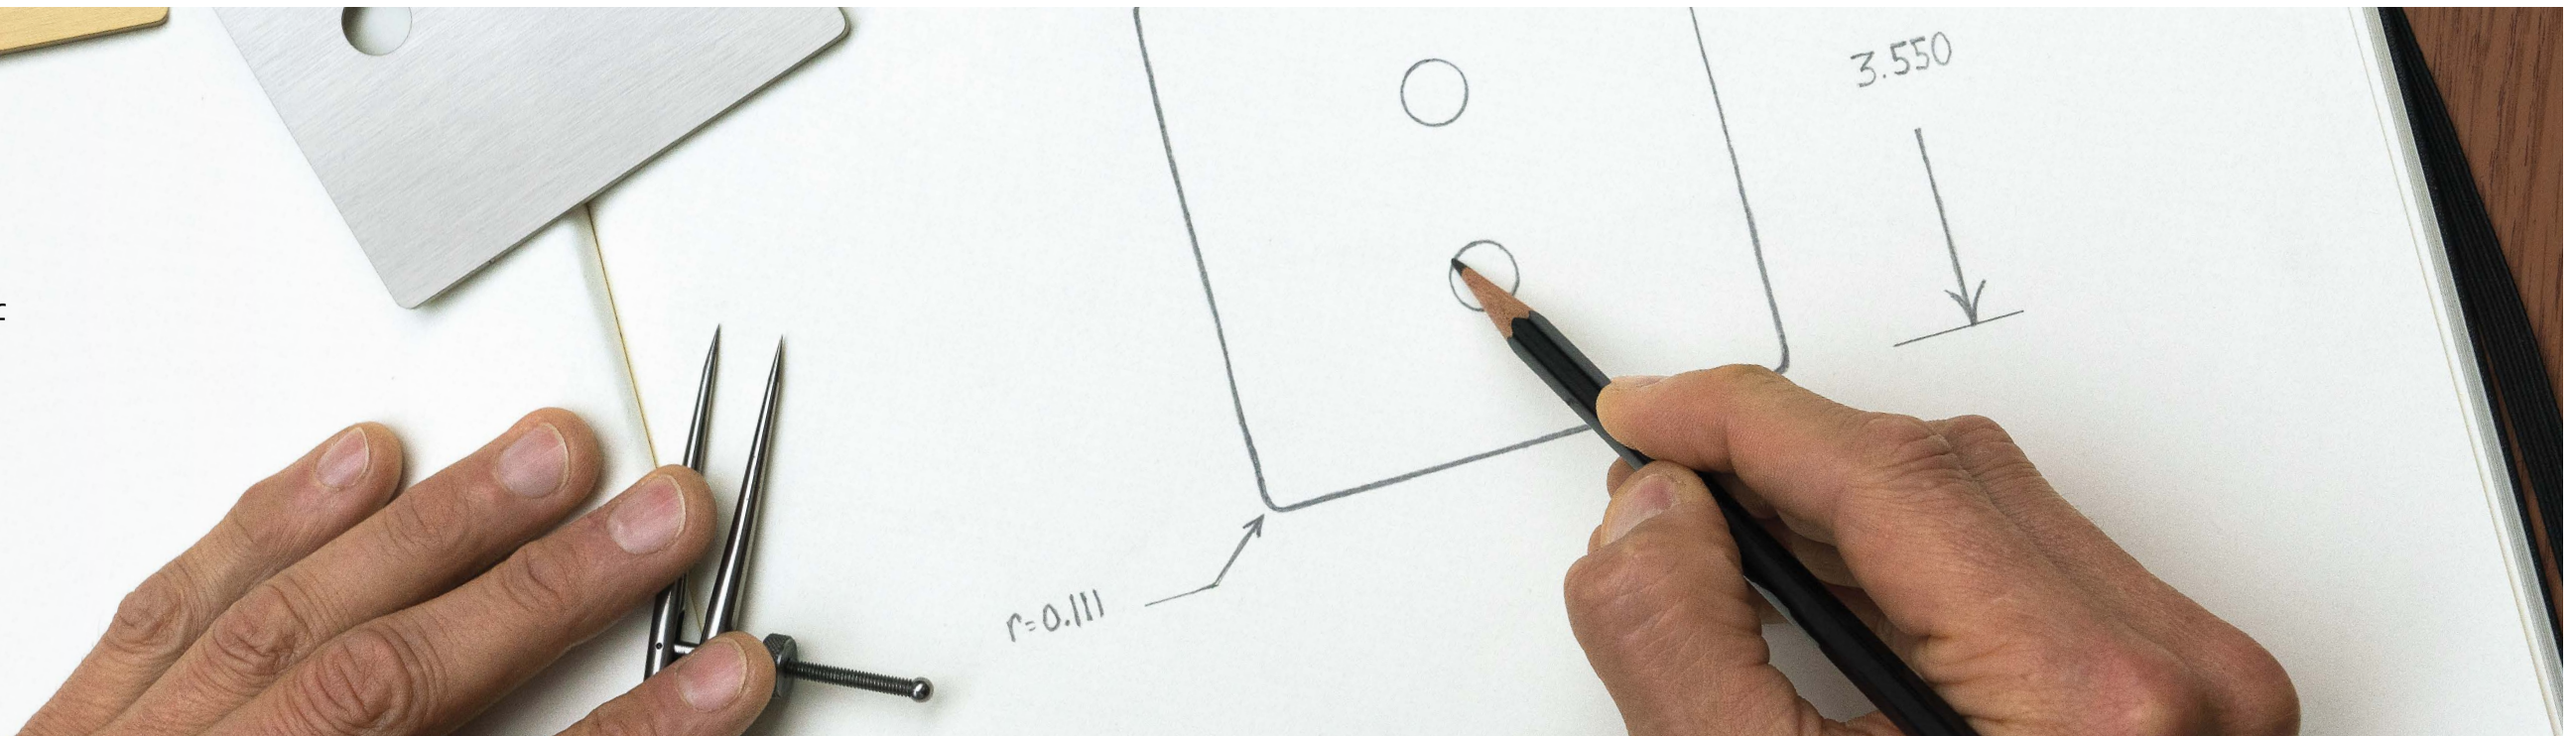

Immediate access to personalized light, shade, and climate control, whether you're lounging in the living room or sipping sunset cocktails in the harbor. The Lutron App puts whole-home control in the palm of your hand.

# Experience the Craft of Lutron Control

Aesthetics. Cognition. Ergonomics. These principles guide the Lutron design process, ensuring each custom-engraved keypad strikes a balance between architectural elegance and intuitive simplicity.

## Other Controls

Expand your Lutron system with material- and color-coordinated devices and accessories, such as dimmers, fan controls, remotes, vacancy/occupancy sensors, and screwless faceplates.

Maestro Dimmer

Sunnata Fan Control

Pico Remote

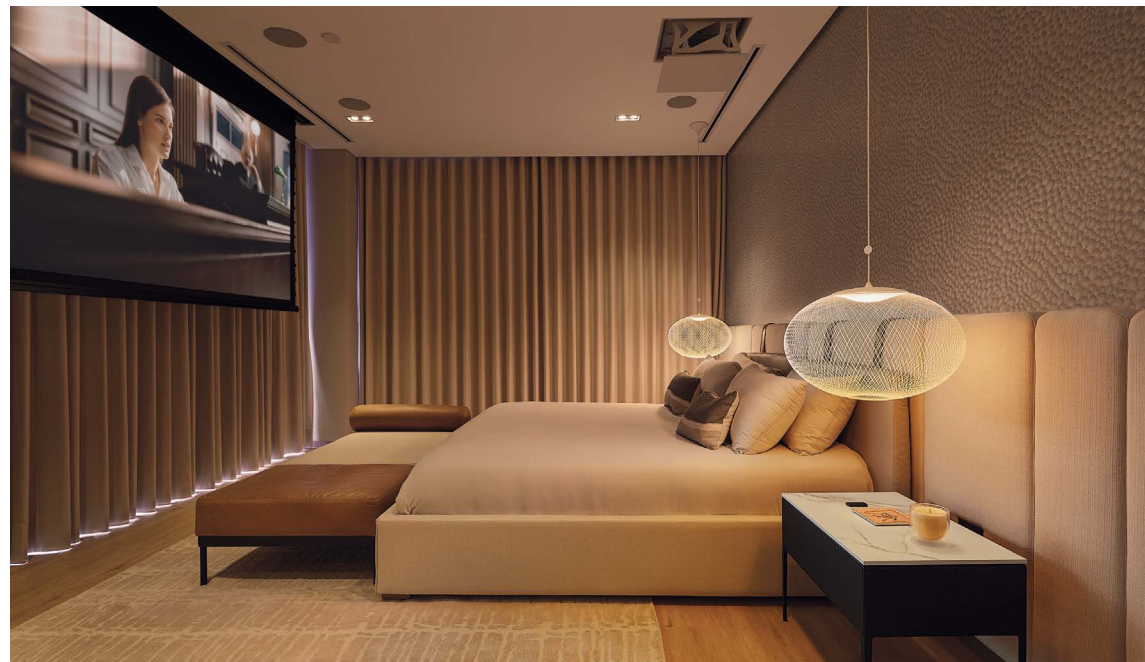

Sensors

Security, climate control, A/V, home automation, voice — tying these components to the portfolio is what makes a smart, luxury home truly intelligent. And with Lutron's latest technologies, these third-party integrations have never been more responsive, reliable, or secure.

# Integration

## Advanced Connection

## Home Theater

Remake any room into an immersive home cinema. Queue up a film, tune the room's lighting, and close the drapery with the push of a button.

## Security

"Vacation Mode" adds to the home security system by dimming lights and adjusting shades in a sequence automatically created to mimic your day-to-day habits.

## Voice Control

The most natural way to control the home. Voice allows anyone in the room to control lights, shades, climate, and any other connected device.

Product: Palladiom with Josh AI

## Climate Control

Craft your comfort. Control heating, cooling, and fans via Lutron thermostats, keypads, timeclocks, and the Lutron App.

Product: Palladiom Climate Control and Keypad

# Enjoy the Luxury of Seamless Integration

Unlock the full potential of the intelligent home. The Lutron luxury portfolio serves as the ultimate smarthome foundation. A/V, security, climate, voice assistants — nearly anything you can imagine. Your Lutron custom integrator will seamlessly connect each part of the portfolio to be responsive, reliable, and secure.

# The Lutron Difference

Design-driven. People-centered. For over six decades, Lutron has been redefining the role light plays in our lives.

## Heritage

Since the beginning, Lutron's in-house design and engineering have been rooted in the same core principles. The consistency of our designs reflects the consistency of those principles. Aesthetics, Cognition, Ergonomics.

## Quality

With thousands of patents to build on, the latest generation of the Lutron luxury portfolio brings together best-in-class dimming technology, automated shades, and next-generation lighting fixtures to set a new standard for whole-home control.

## Service

Quality and reliability are what we make. That's why each component comes with an extensive warranty and the backing of industry-best 24/7 technical support.

## Experience Centers

Immerse yourself in the ultimate whole-home control experience. Lutron lighting experts demonstrate the benefits of integrated lighting, shades, and control in a setting designed to inspire. Schedule a consultation at a Lutron Experience Center today.

# Experience Centers

Book a demo

## NYC NoMad

Located in the heart of New York's NoMad design district. The Global Experience Center is the premier Lutron destination for meetings, industry events, and inspiring demonstrations.

Phone: +1 929.476.0230  
Email: nyexperience@lutron.com

## NYC D&D

New York's home for residential architecture and design professionals, located in the D&D building. Experience the latest in smart home control and gather materials and fabrics from an exhaustive sample library.

Phone: +1 212.752.1214  
Email: nyshowroom@lutron.com

## Austin

Designed by local architects for local design professionals. The Collaboration Studio at Ketra Headquarters inspires dialogue between the design community and their clients with demonstrations of Lutron's next-gen lighting and control systems.

Email: studio@ketra.com

## Los Angeles

Inspired by the creative spirit of the city that surrounds it, the LA Design Studio provides a blank canvas for experimentation with art, material, and the freedom of full-spectrum lighting.

Phone: +1 213.224.3660  
Email: laexperience@lutron.com

## Washington D.C.

Conveniently located in the heart of the nation's capital — now reimagined to exhibit Lutron's breakthrough portfolio of tunable, full-spectrum architectural lighting.

Phone: +1 202.624.5700  
Email: dcexperience@lutron.com

## Coopersburg, PA

Lutron's headquarters for hands-on training. Learn about Lutron's history of innovation and preview the future of electric light with a visit to the Coopersburg Experience Center and Ketra Studio.

Phone: +1 610.282.6280  
Email: paexperience@lutron.com

## London

Lutron's marquee international home for the design community and their customers. State-of-the-art demonstrations educate and inspire, showcasing Europe's latest lighting and shading solutions.

Phone: +44 (0) 207.702.0657  
Email: euroexperience@lutron.com

## Toronto

Located on the waterfront in the heart of the Queens Quay arts district, the Toronto Design Studio is the region's premier locale for design discussions and experiential learning, celebrating the most advanced Lutron lighting, window treatments, and control systems.

Phone: +1 905.754.3300  
Email: torexperience@lutron.com
